(308) 665-5085
bulls@brokenarrowangus.com

Office:
(308) 668-9460
office@brokenarrowangus.com

SALE FORMAT and LOCATION: Sale starts Monday, February 10th at 10 am
Price sheet available February 1st – Bulls will sell on a first come - first served, private treaty format. No bulls will be sold prior to our opening day. Bulls may be viewed at our Headquarters ¼ mile south of Harrison, Nebraska at any time.

DELIVERY: We are happy to deliver all bulls free of charge. We will call ahead to let you know our delivery date. We may ask you to meet us at the nearest town or sale barn if we have multiple deliveries as this makes it easier on everyone's bulls. We will begin delivering March 15th through April 1st. If you can't take delivery of your bulls during this time, starting April 1st we will charge \$3 per day per head for feed until buyer can pick them up. Any bulls left at Broken Arrow after April 1st must be picked up by buyer.

GUARANTEE: All Broken Arrow bulls are fully guaranteed for injury for the first breeding season. If you have an injured bull please call immediately so we can arrange veterinary examination. All injured bulls must be delivered back to Broken Arrow Angus and the full purchase price less \$1,500 will be credited toward the purchase of another bull. All injured bulls must be diagnosed by a licensed vet. This is not a mortality guarantee.

BREEDING SOUNDNESS EXAM: All bulls selling are guaranteed to be breeders before leaving Broken Arrow Angus. All bulls will be semen tested by a licensed vet.

BULL DEVELOPMENT: Bulls were left out on grass until late November 2019. At that time they were brought into big, rocky lots and started on a ration of beet pulp, ground hay, DDG, and cracked corn. They were fed to grow frame and not get fat. Yearling bulls have been on a growing ration with the same ingredients. Rations were developed by Great Plains Nutrition.

Annual
**Private Treaty
Bull Sale**
Starting
**February 10th
at 10 AM**

Friends and Neighbors.

We are blessed to be in the cattle business and be able to raise our family in this industry. This business has a way of lifting you up and then humbling you in a very short period of time. It has been a good year for grass and moisture but winter has certainly brought its challenges. Through the good days and bad we have the opportunity to make the best we can out of the season of the year and of life. As the kids grow older we find ourselves focusing on different activities and our time has more value than ever.

With this in mind we continue to produce cattle that will go out and work for us and get by on what our ranch produces. Our focus continues to be on cattle that don't require a lot of labor or purchased feed to function.

We have some different, outcross sires we used the last few years. These bulls will add pounds and performance. We selected these bulls because their dams were functional, good-uddered cows and the bulls are deep-bodied and full of muscle. We have been happy with the results of these matings and are confident they will be productive and profitable for our customers.

The set of 2-year-old bulls we have for sale this year are big, stout, heavy made bulls that ran on grass through late November. These bulls have never been offered for sale. They should go out and cover a lot of cows.

The yearlings are on a growing ration and are fed to grow and develop but not get big and fat. Again, our goal is for these bulls to be trouble-free and hold up for many years.

Please call with any questions you may have or stop by and look at the bulls. Bulls will start selling on a first come – first served basis at 10 am on Monday, February 10th.

We are thankful for your many years of support and friendship and look forward to working with you again in 2020!

Travis, Katie, Bethany, Rachel, Hannah, Sarah, and Leah Krein

One of the most popular impressive young sires in the Angus breed today, LD Capitalist 316 combines an impressive phenotype with added muscling, correctness and breed character along with calving ease and balanced performance in a complete package. This top-selling bull of his calf crop at Luddington Angus in Oklahoma has served as a feature herd sire at Musgrave Angus.

Baldridge Colonel C251 combines an individual birth ratio of 100 with individual weaning and yearling ratios of 101 and 106, respectively, along with individual IMF and ribeye ratios of 100 and 125, respectively. This famous sire ranks in the upper echelon in multiple categories with a combination of moderate birth with high weaning and yearling, outstanding carcass EPDs and a \$B that ranks in the top 5% among current sires. The famous dam of this bull records progeny weaning and yearling ratios of 117 and 113, respectively, on three natural calves along with progeny IMF and ribeye ratios of 101 and 102, respectively, on 148 head evaluated by ultrasound with 19 daughters in production who post a collective progeny weaning ratio of 103, numerous top-selling progeny to her credits. The first progeny by Baldridge Colonel C251 include an impressive array of top sellers.

7321 is a really deep bodied high volume bull. We selected him for his ability to sire muscle and pounds. His dam is a Harvester daughter with a perfect udder. As a yearling we put him in a single sire pasture with 48 two-year-old pairs for 50 days and were very impressed when we preg checked in the fall, only two opens. He is very quiet natured with excellent libido. He should be a great outcross to our old genetics.

7211 is super long bodied, good topped and full of muscle. He is really long and extended through his front and travels well. His dam is a very powerful deep bodied Angus Mountain daughter. Like 7321 we used him hard as a yearling putting him in a single sire pasture with 52 two-year-old pairs. When we preg checked in the fall we only had one open in his group. He should sire calves with extra stretch and performance.

The highest weaning weight EPD and highest yearling weight EPD herd sire at Broken Arrow Angus Ranch. Bred at Hoover Angus Farm in Iowa, this bull is sired by the \$192,000 Accelerated Genetics Pathfinder sire Mogck Bullseye and was produced from a dam who was a product of the Hoover embryo program stemming from a grandam who is a second-generation Pathfinder dam.

This Broken Arrow herd sire features an appealing EPD balance and earned individual weaning and yearling ratios of 114 and 109, respectively from a dam with a progeny weaning ratio of 111 on five calves and and a progeny yearling ratio of 109 on four head. This bull is by the Genex Pathfinder sire Basin Excitement.
