Broken Arrow Angus Ranch

SALE FORMAT and LOCATION: Sale starts February 4th at 8am

Price sheet available February 1st – Bulls will sell on a first come - first served private treaty format. No bulls will be sold prior to our opening day. Bulls may be viewed at our Headquarters ¼ mile south of Harrison, Nebraska at any time.

DELIVERY: We will deliver all bulls free of charge. We will call ahead to let you know our delivery date. We may ask you to meet us at the nearest Highway or town to switch the bulls if we have multiple deliveries. We will begin delivering bulls mid-March.

GUARANTEE: All Broken Arrow bulls are fully guaranteed for injury for the first breeding season. If you have an injured bull please call immediately so we can arrange veterinary examination. All injured bulls must be delivered back to Broken Arrow Angus and the full purchase price less \$1,500 will be credited toward the purchase of another bull. All injured bulls must be diagnosed by a licensed vet. This is not a mortality guarantee.

BREEDING SOUNDNESS EXAM: All bulls selling are guaranteed to be breeders before leaving Broken Arrow Angus. All bulls will be semen tested by a licensed vet.

BULL DEVELOPMENT: Two Year old bulls were developed on grass through mid December 2018. At that time they were brought into big, rocky lots and started on a ration of beet pulp, ground hay, DDG, and cracked corn. They were fed to grow frame and not get fat. Yearling bulls have been on a growing ration with the same ingredients. Rations were developed by Great Plains Nutrition.

Annual
**Private Treaty
Bull Sale**
Starting
**February 4th
at 8 AM**

Price sheet available Feb. 1st

Friends and Neighbors.

After another busy year in the cattle business it seems too soon to start marketing bulls. This year we are stepping up our opening day by a month and starting to sell bulls on **Monday, February 4th, 2019 at 8 am**. This is a result of trying to beat calving season and allows us more time to get the bulls delivered. Hopefully it works well for you, our customers, as well.

We are ready to sell a big strong set of bulls again this year. The two year old bulls ran out this year until the middle of December and then we brought them in and started them on a ration to put some bloom on them. The yearlings were weaned in September and have been coming along nicely. They look to be the stoutest set of yearlings we have had in a long time.

As most of you know, we sold some registered cows in November and have reduced some of the labor in our registered business. We will still calve out 500 registered cows this spring and will continue to be your source for highly maternal genetics that have growth and performance.

We have used some outcross sires both AI and natural service on our "Poundmaker" cows in Nebraska and "Cowmaker" cows in Wyoming. We checked out the mothers of these herd sires and believe them to be functional fertile cows. The bull calves resulting from these matings will be big stout performance bulls and still sire some beautiful females.

As always, our cows run like the cows on our commercial customer's ranches. They graze year round and calve on their own. We value deep bodied, easy fleshing cows that are feminine and fertile. We have not wavered from our founding principles and continue to produce genetics that will go out and make a profit on what the ranch produces.

Once again we want to thank you for your friendship and continued support. Please call if you have any questions and we will be happy to show you bulls or cows. Coffee will be on and lunch will be available on February 4th. As always, we will not sell a single bull before our opening day of **February 4th at 8 am**.

Travis, Katie, Bethany, Rachel, Hannah, Sarah, and Leah Krein

Baldridge Colonel C251 combines an individual birth ratio of 100 with individual weaning and yearling ratios of 101 and 106, respectively, along with individual IMF and ribeye ratios of 100 and 125, respectively. This famous sire ranks in the upper echelon in multiple categories with a combination of moderate birth with high weaning and yearling, outstanding carcass EPDs and a \$B that ranks in the top 5% among current sires. The famous dam of this bull records progeny weaning and yearling ratios of 117 and 113, respectively, on three natural calves along with progeny IMF and ribeye ratios of 101 and 102, respectively, on 148 head evaluated by ultrasound with 19 daughters in production who post a collective progeny weaning ratio of 103, numerous top-selling progeny to her credits. The first progeny by Baldridge Colonel C251 include an impressive array of top sellers.

Goldmere 92 is a genetic gem for our program. His sire, Goldmere 935, was a result of flushing the famous "909" cow to Juanada Goldmere of PJM. "909" was in her 20's when we stopped flushing her and is in an elite group of cows that raised natural calves into their late teens in an all grass environment. As a calf, his sire 935 had the look of a herd sire. Visitors to Broken Arrow Angus found him as a favorite. Goldmere 92's dam, the "134" cow, is among my favorite cows at Cole Creek. She is a feminine, wedge shaped 0544 daughter that has 9 calves. Her dam, the "905" cow, is another member of the "teen age club" at Cole Creek, raising calves until she was 18. This young bull is attractive to look at and gentle to be around. While his EPD profile does not overwhelm us, his pedigree provides adequate substance to the resume of this young herd sire. His calving ease is solid and his daughters should be dynamite contributors to our cow herd.

This is another Ballard son we chose to carry on the Ballard influence in our cowherd. His dam, 219, will calve again in 2015 at 13 years old. She is a big, powerful, strong cow that has tremendous length and capacity. Ballard 281 had an individual weaning ratio of 103 when his dam was 10. We expect the 281 sons to be attractive, stand up beef bulls with lots of libido and soundness. Daughters of 281, without a doubt, should be functional and big bodied.
